

**The Village at Nags Head Property Owners Association  
Architectural Control Committee  
Pool Standards**

The following items are used as guidelines for approval of pools within The Village at Nags Head:

- Pools should be placed on the least conspicuous site possible on the property.
- Fencing for pools should follow the guidelines set forth in the 3<sup>rd</sup> Revision to the Guidelines for Building and Development.
- The entire pool area including the fence must be completely screened with vegetation. The vegetative buffer must consist of evergreen plants at least 42" in height at the time of planting. There should be a minimum distance of 5' between the plants.
- Care should be taken to preserve and protect natural vegetation on the site.

All vegetation must be installed immediately upon completion of the pool and fencing within seasonal guidelines for planting.
